

## KEEP SARASOTA'S 8-YEAR TERM LIMITS

In 1998, 68 percent of Sarasota County voters approved 8-year term limits for the county commission. With the complicity of the commission itself, litigation has kept the limits from being enforced. But now, just as the state Supreme Court is expected to mandate enforcement, the commission is proposing a new 12-year term limit *with a new 12-year grandfathering period*. Polls show the 8-year limits are as popular as ever. Let the commissioners know you expect them to place the clearly expressed will of the people above their narrow self-interest: Leave Sarasota's voter-approved 8-year term limit *alone*.
